Job Description

For our offices in Madrid, we are currently looking for a Junior Business Intelligence Analyst. As a Junior Business Intelligence Analyst you'll be responsible for translating product business requirements, as defined by the local regulators of different countries, into technical specifications. Parameterizing and testing reporting solutions, following up regulation changes, documenting solution requirements and designs. In the longer term you will also get responsibility over your own project working with colleagues and external development parties.

Your responsibilities:

- Making detailed analysis of business requirements imposed by the regulators of various countries
- Defining quality assessment methods for the solutions developed based on the specifications made
- Creating detailed design documentation for the software solution to be developed
- Parameterizing the reporting solution on the Financial Studio platform
- Verifying developed software against the specified acceptance criteria
- Following up regulator publications for changes in policy
- Project planning/follow up and management

Qualifications and Skillset

Education:

- Relevant higher education

Essential:

- You are a starter in IT or do have 1 or 2 years of experience
- A good understanding and insight in relational databases (SQL or Oracle)
- Knowledge of the T-SQL syntax is a plus
- You have a good knowledge of Excel and VBA (functions, conditional formatting, pivot tables, etc)
- You know what XML/XBRL is and preferably have some experience with one of both
- You have a broad view on technology in general and have a bit of knowledge of other technical areas such as .NET, Java, C#, ...
- Good written and spoken English

Desirable:

- Knowledge/ experience with Prince 2 methodology is considered as an asset.

Personality / Personal traits

- Adaptable to change and feeling at ease in a quickly evolving environment
- Committed to accuracy and completeness
- Customer- and service-minded
- Good communication skills

Our offer

We offer you a position in a team-based, international, leading financial organization. Within Wolters Kluwer Financial Services, you will find straightforward communication, a fast-paced work environment with challenging projects, interesting career opportunities and a competitive salary package.
