

Our Company:

Amadeus provides the technology which keeps the travel sector moving - from initial search to making a booking, from pricing to ticketing, from managing reservations to managing check-in and departure processes.

Our products and solutions help to improve the business performance of our customers; travel agencies, corporations, airlines, ground handlers, hotels, railways, car rental companies, airports, cruise lines and ferry operators...

Vacancy Development Trainee:

We are looking for a Development Trainee to enhance our reporting on e-Commerce and Web Services customer KPIs & support the consulting teams with the development of solid tools and consulting materials in 193 markets where Amadeus has presence. This person will learn all the insights of the Travel Industry and its strategies, especially in the Online Travel segment.

Main tasks

Develop and define Business Intelligence solutions with Java and Qlik.

Provide support to the internal customer with active monitoring and incidence tracking in the issues detected with the reporting tools.

Provide support to the consultancy team getting involved in the analysis and providing ideas for improvement.

Education:

University degree or technical degree (Computing or Telecommunications or similar)

Fluent in Spanish and English.

Functional/Technical Skills:

Java and web knowledge.

BI Tools like Qlik, Tableau, Kibana... it is a plus.

Proactivity to work across departments

We offer a paid internship and the possibility of joining an international company.
