

WHAT IS NETATMO ?

An expert in IoT, Netatmo is a fast-growing French innovation company.

Our products are revolutionary, with Welcome, our face recognition indoor security camera, our Connected Thermostat for smartphones designed by Philippe Starck, and our Indoor and Outdoor Weather Stations.

We are regular winners at the CES Show in Las Vegas.

WHY NETATMO ?

1. Netatmo is a technology driven company
2. More than 50% of our staff are in R&D
3. The average age is 30 years' old
4. A multicultural company, we are made up of over 20 different nationalities
5. Not necessary to speak fluent French, we speak many languages (as well as 13 programming languages!)
6. Good career opportunities: 13% of our employees started as interns and there are many chances to progress
7. Nice offices located next to Paris
8. Ping-pong and Foosball tables, Lego and colouring walls, gym...
9. Possibility to do sports with colleagues (crossfit, yoga, running...)
10. A flat hierarchy, everyone has their own responsibilities and openly shares their ideas
11. Paid internship (9,88€/gross per hour)
12. Daily luncheon vouchers
13. 50% of your monthly Paris public transport ticket and your annual Velib (*bicycle*) subscription reimbursed
14. Housing assistance offered by the French government (CAF)
15. Return flight tickets offered*
