This is a position in UNOPS for supporting projects carried out for the United Nations Secretariat. The incumbent of this position will be a staff member of UNOPS under its full responsibility.

Within the Enterprise Application Center (EAC)/ America programme, this post will report to the Information Systems Officer or his designate in the Web Services Development Group in architecting and developing Drupal websites.

S/he will assist with customization or development, as well as maintenance of Drupal 7 and Drupal 8 modules and libraries; will assist with the requirements gathering and review; assist with the migration of existing websites from a variety of WCMS platforms to UN standards based Drupal 7 and 8 websites; will

assist with incident and problem resolution with Drupal websites.

Functional Responsibilities

Under the overall supervision of UNOPS Senior Programme Manager, the incumbent will directly work under the Information Systems Officer or his designate in New York and will be responsible for the following duties:

- Assist with the development and the maintenance of full-life cycle implementations of Drupal-based solutions providing support to a focus on maintainability, reliability, scalability, security, and performance.
- Assist the Manager with the performance of site-building activities, including assistance with creating and modifying views, contexts and blocks to match functionality specified in wireframes and designs.
- Provide assistance to the theme of responsive websites using Drupal version 7 and 8, and applications as per UN branding, accessibility, and multi-lingual standards.
- Help the Information Associate with the work related to the evaluation of user requirements, designs, and wireframes during the design and user experience phase.
- Support the preparation of technical documentation.
- Perform other duties as may be reasonably required and in line with the incumbent's scope of services above.

Impact of Results

This initiative will help support the development of a continuously maintained and enhanced Drupal UN platform with a common core. It will also support the rapid delivery of new low cost features and enrich departmental websites in an Enterprise hosted environment. The initiative will also track UN website standards compliance KPI's as part of the ICT strategy and the website governance project.
