

Title	Research Analyst - VBA intern (6 months +)
Division	Sales & Trading - Commodities
Location	Geneva
Starting date	ASAP (ideally at the beginning of summer 2014)
Remuneration	Yes

BTG Pactual

BTG Pactual is the leading Investment Bank in Latin America and pursues a strong worldwide expansion strategy, especially in the US, the UK, China and Switzerland. In Geneva, you will join the Agricultural Commodity Trading Division which started a year ago and now employs over 50 people.

Description

Our team is responsible for conducting research covering a wide range of agricultural commodities. Analyzing and forecasting prices, stock levels or trade flows require extensive use of data and we are therefore looking for motivated individuals to assist the team in processing them. During the internship, you will report to a Senior Quantitative Analyst and have the opportunity to learn from highly talented and experienced professionals. Moreover you will gain valuable work experience and acquire insight into our company and business areas.

Responsibilities

- Develop and maintain VBA tools
- Challenge, improve and automatize processes
- Assist analysts and quants in their day-to-day activities
- Realize research studies and projects depending on the market needs

Requirements

- MSc or PhD in a quantitative field
- 0-2 years of experience. Recent graduates are encouraged to apply
- Strong programming / development skills. Languages used internally: VBA, Matlab
- Fluent English is mandatory, others languages are an asset
- Solution-oriented
- Strong communication skills with the ability to explain detailed technical information in a clear and concise manner, to a variety of audience
- Flexible and very dynamic with good interpersonal skills
- Ability to multi-task and prioritize multiple projects at all times
- Ability to work under pressure
