Company description :

Shaping the future of travel is important to us at Amadeus. Today, with technology getting smarter by the minute, that future is more exciting than ever.

Our business success relies on our people being always passionate about what we do. We believe in aiming for excellence, taking responsibility, working together and putting our customers first.

We encourage you to be part of new and exciting projects and for you to take the lead when it comes to your progression.

Since mobility allows you and Amadeus to grow, we always look internally first when searching for candidate.

Job description :

Summary of the role

Analyse user needs and design, code, test, debug, document and maintain software solutions.

Main responsibilities

Define user requirements for development of new or improvement of existing software solutions.

Design technical solutions and perform feasibility studies.

Propose viable technical solutions to Product Management and/or users for validation.

Model, design and implement databases as necessary.

Develop software according to Amadeus Standards.

Conduct unit, package and performance tests of the software and ensure a level of quality in line with the Amadeus guidelines.

Participate in the validation / acceptance phase of the product cycle ensuring the fine-tuning necessary to finalise the product.

Produce software documentation necessary for the application and issue it to the requesting departments.

Support the end user in the Production phase by debugging existing software solutions in response to Problem Tracking Records (PTR) and Change Requests (CR) issued from Product Management or Product Definition.

Required profile :

* As a recent University or "Grande Ecole" graduate in Computer Science, or with a first professional experience, you have a good knowledge of Java, J2EE, UML Modeling and in Web Technologies (JSP, HTML, JavaScript)

Technical Skills

* Web Technology (JSP, HTML, JavaScript)

* Java, J2EE, Weblogic, UML Modeling/Rose

* Microsoft SQL

* Windows environment
